Additional Notes:

Full Line of Straumann® CAD CAM Abutments and Restorations Now Available at Dale Dental.

GET REAL With Genuine Straumann

Why take chances with “knock off” custom Straumann abutments when “Getting Real” is easier, faster and more affordable than ever before with Dale Dental.

Now Dale Dental offers genuine Straumann custom abutments complete with matching genuine screws at prices and turnaround time that make the thought of choosing “knock off” competitor abutments and screws a thing of the past.

In addition, Dale Dental offers the complete line of Straumann CAD/CAM restorations including Zerion zirconia and Ticon titanium understructures and full contour e.max CAD, castable resins and temporaries. All genuine Straumann restorations can be manufactured and delivered with your custom abutments or on your conventional model crown and bridge preparations.

Dale Dental can manufacture your genuine Straumann custom abutments from your abutment waxup, implant model or have us make implant models and abutments from your impression. All Straumann custom abutments and restorations are returned in five days or less and can be requested as fast as the next day.

Learn more today at www.RealStraumann.com or call us at 888-Get-Dale
