Cercon® Art - Your Partner in Profitability

Cercon's unparalleled CAM system has finally met its match in the Cercon® Art CAD module!

- Hardware and software custom designed by DENTSPLY for Cercon
- System includes computer, printer, Art software, and unique Cercon® Move 3D navigation system
- Intuitive "wizard" software guides even novice users through the system easily
- Visualize copings in 3D virtual reality before milling
- Design and mill Cercon single units in about 15 minutes
- Updated, efficient circular milling strategy for improved fit
- Nest multiple units in a single blank for maximized lab profits

Cercon Art –
facilitates dental work
instead of complicating it.

Cercon® - Your Partner in Profitability

DENTSPLY Ceramco is proud to introduce some exciting new additions for your Cercon Zirconia system!

- Extra large CB 47 Cercon blanks accommodate curved arches and longer span bridges up to 47mm, with multiple pontics
- Shaded Cercon blanks provide a chromatic alternative to the white blanks
- Ceramco® PFZ Porcelain - proven to be the perfect esthetic partnership to zirconia restorations!
- And most importantly, Cercon® Art - your system's CAD partner
